People usually have lots of fun and spend great time on vacation. However, there are many steps to have a perfect vacation. Here they are.

You need to decide where to go first. It's the most important factor for a perfect vacation.

It's a good idea to look for the famous places of the city or country you're visiting. If you don't like them, you should change your destination.

Arrange where to stay in advance. Otherwise, you may not find an appropriate place to stay during busy seasons.

Look for the traditional and popular food of the country you're visiting. You may not be interested in the food it offers.

Finally, it's a good idea to check means of transportation in the place you're visiting. You don't want to walk everywhere at all.

Answer the questions (7-9) according to the information below.

Nowadays the Internet dominates the teenagers' lifestyles from communication to entertainment. Moreover, more and more teenagers are engaging in informative websites every day. However, there are many disadvantages of the Internet, too. While looking for the information, it's a good idea to confirm the information with other sources as well because the information you find on the Internet cannot be correct all the time. Moreover, avoid sharing personal information with the ones you don't know in person. They may steal your identity and harm you. You should use strong and sophisticated passwords for your accounts. Don't share them with others to stay safe while on the Internet.

Answer the questions (10-12) according to the information below.

Communication is the thing that makes us human beings. There have been lots of means to keep in touch with each other since the beginning including telegraph, letters, postcards, Internet or even messenger birds. While discussing on communication, it's quite hard not to mention Graham Bell, the father of telephone. He invented the first telephone in 1876. Since then, communication technology has changed and improved a lot. Nowadays, we have our smartphones to keep in touch with each other. These devices provide us with talking, texting, accessing our social media accounts. Moreover, we can use these devices to play games and search for information. Now, we're watching curiously what next development in communication will be and how it will affect us.
